Intensive care for boosting elasticity

When skin cells begin to age, the structures in the skin loosen, the elasticity of the skin decreases, and the regeneration of epidermal cells slows down. As a result, the skin texture becomes uneven, the complexion darkens, and the skin becomes dry. 7.2 Revital Cell Ampoule increases the absorption rate of active ingredients by applying patented technologies to the PDRN extracted from salmon DNA and growth factors. It makes both inside and outside of the skin firm and elastic. Feel the freshness and see how your skin got its pink glow back.

7.2 Revital Cell Ampoule

Volume : 50ml
Directions : Apply the right amount to absorb.

Patented Absorption Technologies
Restoring & Strengthening Elasticity

Overcome the limits of absorption

Technology 1. TDN double encapsulation increases the stability of the active ingredients and protects them from the external environment.

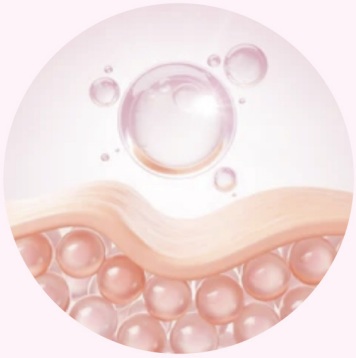
Technology 2. Active ingredients penetrate the skin for 72 hours with RG2 coated spicule to restore skin elasticity and normalize the regeneration cycle.

#fill from the inside of the skin

□ PDRN 20,000PPM
Extracted from salmon DNA, produces collagen that increases elasticity, helps skin tissue regeneration and growth.

□ Peptide
Tripeptide-1, Hexapeptide-9, Acetyl Hexapeptide-8, Tripeptide-29, helps maintain collagen in the skin, improves elasticity and wrinkles.

□ Panthenol
Helps restore skin tissue, moisturizing and nourishing



#firm the surface of the face

□ Triple Hyaluronic Acid
From the inside to the surface of the skin, it forms a moisture layer with triple moisture to maintain moisture.

□ Ascorbyl Glucoside
Removes active oxygen, represses melanin production, brightening.

□ Idebenone
Super antioxidant, anti-aging, promotes collagen synthesis.

□ Bifida Ferment Lysate
Absorbed into the skin epidermis to promote collagen synthesis, anti-aging.
